

ConversionHelperBase

```
graph BT; CHD[ConversionHelperDerived] --> CHB[ConversionHelperBase];
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'ConversionHelperBase' with a light gray fill. Below it is a box labeled 'ConversionHelperDerived' with a white fill. A blue arrow points from the bottom of the 'ConversionHelperDerived' box to the bottom of the 'ConversionHelperBase' box, indicating that 'ConversionHelperDerived' inherits from 'ConversionHelperBase'.

ConversionHelperDerived
